Carla Antoni's collection of distinctive objects takes Africa-style luxury to a whole new level

Cape Town-based Carla Antoni has always had a soft spot for beautiful things. The wife of award-winning local architect Stefan Antoni, Carla's glamorous lifestyle and extensive travels have enabled her to experience the more luxurious side of life at home in South Africa and in far-flung destinations across the globe. A global perspective, coupled with her innate sense

of style make Carla perfectly suited to her new role of collector and purveyor of beautifully crafted, locally produced gifts.

For the past year or so Carla has collaborated with some of the country's best artists, designers and artisans, to produce 'The Carla Antoni Collection', a distinctive range of sophisticated décor items, collectibles and keepsakes that make thoughtful, elegant gifts for oneself or for friends or family. Each item has been specially created and crafted for the collection to ensure its exclusivity. "Travellers and collectors in search of unique, sophisticated gifts and souvenirs that convey the spirit of Africa will delight in the concept as each piece is truly exceptional.
